

Praneeth Jayarathna

E-Commerce, Fintech

pubudupraneeth@gmail.com | Cell : +94 71 360 89 78 | Address : No 03, Bangalow rd, Metiyagane, 60121
[linkedin.com](https://www.linkedin.com) | [portfolio](https://www.portfolio) | [credly.com](https://www.credly.com) | [medium.com](https://www.medium.com)

I'm part of a team working to enhance business with technology.

SKILLS

- Java, Spring Boot, Python, Flutter, React JS, SQL
- Micro Service, RabbitMQ, AWS, Kubernetes, Docker

NON-TECHNICAL SKILLS

- English Communication – Intermediate Level
- Teamwork and Collaboration

WORK EXPERIENCE

OffCode solutions (pvt) Ltd || *Snr. Software Developer (Remote)*

2025/Jan – Present

- Designed and developed an HR work-hour calculation system to optimize workforce productivity and improve operational accuracy.
- Automated garment project design processes, reducing manual workload and streamlining workflows to significantly improve productivity.

Pacific Link Collage || *Professional Development & Academic Project*

2023/Nov – 2024/Dec

- Took intentional family-focused career break while maintaining technical sharpness through self-directed learning and hands-on development.
- Built high-frequency prediction market platform (Java, Spring Boot, RabbitMQ) featuring pari-mutuel settlement, asynchronous bet placement/settlement pipelines, and event-driven reconciliation — applied distributed design for scalability, fault-tolerance, and zero-downtime reliability.

Project X Space (Pty) Ltd || *Full stack Developer (Remote)*

2023/June – 2023/Nov

- Built a Point-of-Sale (POS) and e-commerce system integrated with a mobile-based food delivery app for Brazen Brownie, handling over 1,000 monthly transactions and enabling seamless real-time order, inventory, and payment management.
- Developed a mobile-based financial application to enhance personal banking features by flutter.
- Developed a B2B e-learning platform with online exams, video tutorials, and automated grading, using Java, Spring Boot, MongoDB, and AWS — serving over 100,000 users.

Novigi Pty Ltd || *Integration Engineer*

2022/Mar – 2023/Jun

- Set up WSO2 ESB for LMS and data-integration workflows for University College London, enabling reliable communication across academic systems.
- Implemented and automated AWS API Gateway for an active development project, providing secure routing, request validation, and seamless integration with backend services.
- Built serverless data-processing pipelines using AWS Lambda and Step Functions to automate cross-platform workflows involving Mailchimp, Zoho, and GitHub.
- Provided customer support for existing integration products, troubleshooting issues, delivering fixes, and ensuring smooth operational performance.

Hitachi Digital Payment Solutions(pvt) Ltd || *Software Engineer*

2020/Dec – 2022/Mar

- Modified existing financial settlement modules for supporting Visa and Master card Mandates.
- Enhanced the efficiency of Bin extraction function using Java concurrent executions
- Updated reconciliation modules to support Visa and Mastercard mandates.
- Improved the performance of the database and Monitored database bugs in customer systems at Vattanac Bank,

FTB Bank Cambodia, and Nepal Bank, and rectified database errors in Oracle 10g, PostgreSQL, and MySQL databases using SQL querying.

- Provided customer support for new module implementation and documentation. Excel sheets were used for bug management and release tracking, as well as reviewing customer issue tickets and providing solutions.

Apigate (pvt) Ltd | | *Junior Software Engineer*

2020/Apr – 2020/Nov

- Developed an e-learning application that facilitates online exams, video tutorials, assessments, and grading.
- The objective of this project was to develop a B2B Stream Education platform for remote learners.

Apigate (pvt) Ltd | | *Intern Software Engineer*

2019/Sep – 2020/Mar

- Contributed to bug fixing, modification, and configuration of WSO2 API Manager and Identity Server.
- Implemented a Mailchimp AWS Integration and Automation.

EDUCATION

Uva Wellassa University | | Sri Lanka

2016/Feb – 2020/Mar

Bachelor of Science (hons) in Industrial Information Technology Degree Program (Special) GPA 3.28/4.0

Relevant Coursework: Programming (C, Python, Java, PHP), Arduino, Software Engineering, System Design, Research Methodology, Data Structures, Algorithm, Mobile Computing, Industrial Projects, Accounting, Finance, Marketing, Entrepreneurship, Final Year Research

CERTIFICATION

- AWS Certified Developer – Associate
- AWS Certified Cloud Practitioner
- Cisco Introduction to Cybersecurity
- Oracle Certified Java Programmer
- Certified Kubernetes Application Developer (CKAD) – In Progress

AWARD

NBQSA

2017 and 2018

National Best Software Qualification Merit Award

NON-RELATED REFEREES
